

OnLatte Beverage Printing

The Buzz:

It doesn't matter what you're selling. It doesn't matter what conference, trade show or exhibit you're attending. Your biggest challenge is always the same.

Getting people to pay attention.

That's where OnLatte comes in. We've introduced an exciting new marketing medium that can generate instant buzz for your event or exhibit booth and will have attendees streaming in to see what all the excitement is about.

How it Works:

OnLatte developed a special printer that uses caramelized sugar to create long-lasting and stunning replications of corporate logos, images and a variety of other designs. If you've got a picture of it, it's a safe bet we can print it.

All you have to do is choose your image. We simply load it onto a laptop, connect it to the Latte Art Printing Machine, place the cup next to the printer and bring your image to life by spraying the caramel ink over the surface. The process takes a matter of seconds and the result is completely edible.

Our Service:

The OnLatte beverage printing service is self contained and low hassle. We provide everything you need to create an onsite latte or beer station, including our patented Latte Art Printing machine and any necessary staff to operate it. A base setup services approximately 200 cups a day and requires minimal space. It's easily set up on a 6' X 2' table.

We also specialize in custom offerings to meet your needs, as well as the objective, at your event.
